Using the Proxy Server: UC Health

2. Select the second tab for **Access – Proxy Login** (http://guides.libraries.uc.edu/uchealthoffcampus).
3. Click on the **Library Off Campus Access (Proxy)** button.
4. Select the **Affiliates Login** tab.

5. Fill in your assigned UC ID number (it will begin with 988) and your last name. Click submit. If you need a 988 number, go to the Register tab on the UC Health guide and click on the registration link to request one. Once your request has been processed, you will receive a 988 number via email.

6. Once you’ve logged in, you’ll return to the UC Health homepage. Continue your research from this point. Once you log in, the word proxy should appear somewhere in the URL. If you see that, you are still in the proxy server. As you navigate to the online resource you’re interested in using, if you get to your destination and you no longer have “proxy” in the URL, you may have fallen out of the proxy server and you’ll need to log in again.
